

The power behind Polarium The Polarium-BASE™ combines seed amplification, pump laser, thermal management, control electronics, and an intuitive graphical interface into a single, high ...

Located in England, OEI now serves many of the world's top operators, along with over one million users worldwide. Products include wideband RF MMIC, CATV optical receiver modules, CATV amplifier ...

EI CPTEC Monolithic Pulsed Fiber Lasers OEI's proprietary CPTEC design achieves the highest efficiency and lowest B integral available in a monolithic fiber amplifier, allowing for higher energy ...

Oei High Gain Power 1200MHz 24V CATV Optical Receiver Module, Find Details and Price about Optical Receiver Module GaAs Mmic from Oei High Gain Power 1200MHz 24V CATV Optical ...

Hybrid amplifier module operating over a frequency range of 40 to 1218 MHz at a voltage supply of +24V (DC), employing GaAs MMIC.

OEI's proprietary CPTEC design achieves the highest efficiency and lowest B-integral available in a monolithic fiber amplifier, allowing for higher energy levels with a better preserved spectral purity.

OEI 1000MHz 25db 12V CATV optical receiver module Ogi10002512 - OEI Products Made In United Kingdom, China Manufacturer.

Applications. OEI's proprietary, high efficiency diode driver and optical amplifier architecture achieves over 40% wall-plug efficiency and a new, lightweight coldplate design reduces pressure drop in the co s ...

Seeking scanned datasheets and/or app notes for the AH0013 wideband FET preamp (8-pin DIP) and the AH0014 FET input operational amplifier (14-pin double wide dip), made by Optical Electronics ...
