

Testing Modules & Tools Smart Optical Transceiver BOX GIGALIGHT provides the smart box tools for online coding of SFP, XFP, SFP+, QSFP+, and QSFP28 optics, as well as wavelength tuning for 10G ...

Boost network performance with 200G optical transceivers. Designed for data centers, 5G, and cloud infrastructure, our QSFP56 modules deliver low latency, high reliability, and seamless compatibility.

200G CFP2-DCO DWDM 1200km Tunable Transceiver. The Coherent 100G/200G CFP2-DCO 1200km optical module, using a 104pin CFP2-MSA connector, serves as an electrical interface to the system ...

The above listed optical modules come per default with 100G license. The 200G capability is an add-on that can be procured as a license shown in the above table.

The electrical interfaces from the module to the host card are provided through a 104-way CFP2 MSA connector which carries all power supplies, signaling and control data for both transmit and receive ...

Broadex Technologies" high performance and cost effective 200G Optical Transceiver Modules are built utilizing our innovative COB technology in a QSFP56 form factor.

The 200G CFP2 module allows transmission with the Mux/Demux and EDFA in point-to-point topology up to a distance of 80 km, providing greater scale and higher transfer rates for DCI.

The CFP2-DCO pluggable transceiver is a CFP2 MSA-compliant digital coherent optical module designed for line-side trunk DWDM data center interconnect (DCI), metro carrier, and regional/long ...

100G/200G Coherent CFP2-DCO Transceiver Module This CFP2 ...

100G/200G Coherent CFP2-DCO Transceiver Module This CFP2 coherent optical module supports wavelengths from 1528 to 1567 nm and has a transmission capacity of up to 200 Gbps. ...

200G CFP2-DCO C-Band tunable DWDM coherent optical transceiver module. MSA and OIF-CFP2-DCO specification compliant. Up to 2000km reach.
