

Fiber distribution box is made of high-strength engineering plastics, anti-UV, anti-aging ability. The distribution box is sealed adopts buckle + two screw type ...

**Application Description:** Optical Distribution Point ODP Box provides a connection point between distribution cables and drop cables at the subscriber access point in fiber optic network.

It is primarily used to terminate, splice, and organize optical fibers, providing a structured cabling solution for in-building and outside plant applications. The box must be designed to withstand ...

**Material:** PP+GF. Moisture proof, waterproof, dust-proof, anti-aging. Protection level up to IP68. 1 oval optical cable entry, 2 branch optical cable entries and 16 pre-connected adapters. ...

Optical Distribution Boxes, 4 to 96 fiber termination, up to 96 fusion splices, indoor / outdoor, 1:2 to 1:32 splitting ratio, for FTTx applications up to 96 subscribers Optical Distribution Box 8 (ODB-8): This ...

It provides a secure point for splicing, branching, distributing, straight-through, or fiber optic termination, preventing environmental hazards such as dust, moisture, water, or UV rays when used outdoors.

Grandway provide customized optical fiber distribution box (FDB) product and solutions which provide a fiber connectivity between the distribution cable and drop cable.

We offer a wide range of 1-24 core FDB boxes and ODF cabinets for indoor/outdoor FTTX deployment. Durable, IP65 rated, and easy to install. Browse our models and get a wholesale quote.

Fiber Optic Distribution box is used as a termination point for feeder cable to connect with drop cable in FTTX communication network.

It is used between the trunk cable optical distribution cabinet and the fiber distribution box to solve the problem of insufficient number of cables in the trunk transfer box and extends the trunk cable to the ...
