

Features & Specifications o Passive device designed to reduce the power level of an optical signal to prevent optical overload at the receiver o Optical attenuators are commonly used in CWDM & ...

SC-SC UPC Male/Female fixed attenuator for singlemode applications to prevent over saturating an optical receiver when the optical power is too high. Using an attenuator ensures low bit error rates ...

Contact Us Description Only 2 left Fiber Optic Attenuator, Fixed - SC/APC 10dB Operating Wavelengths: 1310nm, 1550nm Fiber Connectors: SC male-female Polish Type: Angled Physical Contact (APC) ...

The FiberXP(TM) premium grade optical fixed attenuator is a Zirconia ferrule, doped attenuation fiber type for single mode applications. This male-to-female SC/UPC attenuator has an attenuation value of 10 ...

A Fixed In-line fiber optic SC 10dB attenuator (Mfr. Japan) that can be quickly installed in your single-mode (1310/1550nm) optical link to reduce optical power.

This Fiber Optic Attenuator, Fixed - SC/APC 10dB is necessary to prevent over saturating an optical receiver when the optical power is too high. Using attenuators will ensure low bit error rates and ...

These versatile in-line attenuators are the perfect solution for attenuating Singlemode fiber connectors for both lab and commercial applications. Constructed of the highest quality materials and factory ...

SC/UPC singlemode fixed fiber optic attenuator 10dB,Polarization dependent loss $\leq 0.2\text{dB}$ and return loss $\geq 50\text{dB}$ High attenuation accuracy, low added loss and good ...

These versatile in-line attenuators are the perfect solution for attenuating ...

As optical passive devices, FS attenuators are mainly used in fiber optic to debug optical power performance & optical instrument calibration correction & fiber signal attenuation to ensure the optical ...

Our SC to SC optical attenuators feature excellent environmental and attenuation stability, are easy to install and meet Telecordia GR-910-CORE requirements. This particular unit creates a 10dB loss in ...

SC-SC UPC Male/Female fixed attenuator for singlemode applications to prevent over saturating an optical receiver when the optical power ...
