

All Juniper qualified 400G optics are compliant with key industry standards and specifications for seamless interoperability in multivendor environments.

Our 400G optical transceivers are 100% compatible with leading OEM brands such as Cisco, Juniper, Arista, Huawei, Nokia, Dell, and more. This ...

Shenzhen, China, Jan. 02, 2024 - In 2023, GIGALIGHT secured and successfully executed a large-scale deployment project for 400G silicon optical modules in an overseas data center.

Designed to work with existing IP and optical networks 400Gbit/s edge routers seamlessly integrate into existing IP and optical networks, enabling capacity upgrades without major network redesigns or ...

Integrated optical amplifier offers higher transmission power and longer reach. Reach up to 1200km at 400G and compatible with any type of DWDM infrastructure.

The UfiSpace S9710-76D is a high density 400G open and disaggregated router capable of deploying a 691Tb routing cluster at the edge and core network.

Our 400G optical transceivers are 100% compatible with leading OEM brands such as Cisco, Juniper, Arista, Huawei, Nokia, Dell, and more. This means you get the same performance ...

For the most demanding environments the 400G routing and switching platforms provide flexibility and choice for large scale cloud, leaf and spine, routing transformation and hyperscale IO intensive ...

Shenzhen, China, Jan. 02, 2024 - In 2023, GIGALIGHT secured and successfully executed a large-scale deployment project for 400G silicon optical modules in an ...

Learn how 400G optical connectivity can help your business meet the rapidly growing data demands of AI, 5G and IoT.

Rapid advances in silicon are fueling a new generation of pluggable coherent 400G router optics that open exciting new avenues for rethinking IP-optical network designs. This white paper takes a closer ...
