

# PDU Power Distribution Unit IP67 Export Performance

WALTHER ELECTRIC offers unique, custom-built power distribution units and systems, integrating multiple combinations of receptacles (output) plus the installation of a power inlet that combined in a ...

Each component in our systems is specifically selected or designed based upon proven performance in harsh indoor and outdoor applications.

Belden in-cabinet mounted power distribution units (PDUs) and environmental monitors and sensors are designed from high-quality components to support all your mission-critical applications.

RackPower environmental sensors are engineered with an embedded microchip that converts analog signals to digital format before data travels to the PDU, providing greater accuracy.

The Cyberex® PDU offers the most reliable and flexible power distribution product on the market today with almost unlimited configurations of panelboards and sub-feed breakers to meet every load ...

Increasing rack power density both in the data center and at the network edge means that reliable power distribution is crucial. Our innovative power distribution units and rack PDUs not only maintain power, ...

Controlled PDUs feature switchable outlets for remote power cycling with port monitoring which lets you measure current use at each outlet. Additionally, some PDUs are available without circuit breakers. ...

Providing reliable and cost effective power distribution, the Basic PDU offers IEC outlet grips, tool-less installation in server racks, color-coded outlet sections and a high operating temperature.

Our power experts will help you find the right PRO4X PDU for your specific application, whether a standard configuration model, a configure-to-order model, or by engineering a custom PDU designed ...

Panduit PDUs feature threaded inserts on the back and both sides for the ultimate in mounting flexibility. They safely and efficiently manage and distribute power to multiple devices through a single input ...
