

PON Optical Power Meter Professional Edition

Optical power meters for any network. A range of handheld meters with choice of styles. Best accuracy, flexibility and easy to use.

This STC-PON106 Pro is focus on the latest network for PON Network, it can automatically detect and measure several wavelengths in the PON network, which include G (E)-PON,XG (S)-PON/10G ...

The instrument can simultaneously test voice, data and video signal optical power value and give a judgment. All PON signals can be measured, as well as individual measurements for each ...

The FlowScout PON Optical Power Meter easily withstands a one-meter drop and has splash resistant controls that are easy to use, even with gloves on. Flexible and efficient: A range of field-swappable ...

little or no training. It automatically detects the wavelengths and measures the power of any PON networks on each fiber under t ble in direct sunlight. Test results can be saved and organi

FOPM-205 is PON-specific power meter, which is different from basic optical power meters. It is specifically intended for FTTH and FTTP systems and can measure voice, data and video along a ...

Grandway FHP2P01 PON Power Meter can support measuring 1310nm upstream burst signal and 1490/1550nm downstream signal. GPON/EPON: PON mode; InGaAs: Sensor type; 0.5dB accuracy.

VIAVI power meters are essential for installing and maintaining fiber optic networks. Demo the full range, from multi-use to dedicated PON and FTTH.

Description: As the industry"s advanced PON-specific power meter, BD-PON-P3 PON Power Meter is the flagship of Baudcom line of testing instruments specifically intended for FTTH and FTTP systems.

PON Optical Power Meter Professional Edition
