

Price list for 800G active optical fiber cables for data center interconnection

800G AOC Cables from JTOPTICS are Active Optical Cables that offer lightweight, flexible, and low-power connectivity. Designed for high-performance computing and networking environments, they ...

In the demanding world of network infrastructure, our 800G OSFP Passive and Active DACs deliver the reliability and performance network engineers and VARs have been searching for.

The GIGALIGHT 800G OSFP AOC active optical cable is used for short distance interconnections between equipment within data centers and are compliant with the IEEE 802.3.

Discover Proficium for connectivity at scale with OEM-compatible optical transceivers, dac cables, active copper cables, active optical cables, and fiber optic cables.

AscentOptics provide high performance, high density and low power 800G OSFP active optical cables (AOC), which is suitable for short-range interconnection in data center, high- performance computing ...

FiberMall 800G QSFP-DD to QSFP-DD Active Optical Cable with PAM4 modulation format provides 850Gb/s connection in 800GBASE-SR8 for Ethernet applications.

The 800G OSFP Active Optical Cable is designed for 800 Gigabit Ethernet links over OM4 multimode fiber. This cable is compliant with IEEE 802.3bs, OSFP Rev 5.0, SFF-8679, and CMIS Rev 4.0.

FIBERSTAMP 800G OSFP AOC active optical cable is used for short-distance interconnections between equipment within data centers and are compliant with the IEEE 802.3cm transport protocol, ...

Buy 800G Active Optical Cables (AOC) in OSFP and QSFP-DD form factors. High-bandwidth interconnects designed for AI clusters and hyperscale data centers.

FS 800G/1.6T DAC/AOC cables are compliant with MSA and IEEE standards for guaranteed compatibility and optimal performance and suitable for servers, switches, storage, etc. Purchase from ...
