

Fiber optical single mode (SM) switches are primarily used in the telecommunications field and network technology as well as to connect several light sources with one detector or one source with several ...

Explore our range of MEMS 1xN single mode optical switches designed for high-speed communication networks, telecom systems, and data centers.

The IFB-244-SLC is an industrial-grade optical fiber bypass switch with built-in 4 duplex LC connectors featuring 2-channel duplex or 4-channel simplex fiber connection with optical bypass function. The ...

The QuickSwitch 6250 4-channel SC Duplex A/B Switch, Single Mode, allows each of four channels quick connection to any one of two SC interface devices from one COMMON device.

The single mode SXLA series achieves excellent repeatability and reliability and meets Telcordia 1221 quality standards. The SXLA series are miniature opto-mechanical switches for fiber optic ...

Low Power Consumption: The power consumption is only less than 1 watt, that can save costs wisely. GESD will always provides innovative and cost-effective optical networking solutions. Each sfp ...

1310nm 1550nm 2X2B Single-mode Mechanical Optical Switch Self-locking 0.9 Bushing FC/APC Fiber. The 2X2B optical switch is an optical path control device that has the function of controlling the ...

Mouser offers inventory, pricing, & datasheets for Single Mode Fiber Optic Switches.

Shop DigiKey's large in-stock selection of Fiber Optic Switches, Multiplexers, Demultiplexers. View inventory, pricing and order now for same day shipping!

SFP transceiver that supports 1G connections up to 3 km using single-mode fiber with a simplex LC UPC connector.
