

As battery storage becomes increasingly important in the quest to fully utilise renewable energy sources, a raft of projects in Slovakia is looking to develop cutting-edge battery solutions.

SK-CONT is a manufacturer specializing in high-quality storage containers, which could be relevant for energy storage solutions. With over 25 years of experience and a commitment to quality through ...

As renewable energy adoption accelerates globally, Slovakia's battery manufacturers are stepping up to deliver reliable, high-performance energy storage systems.

To tackle these challenges, Greenbat and Pixii initiated a project, facilitated by MTS spol. s r.o., Pixii's exclusive representatives for Slovakia, Czech Republic, and Hungary, to install and certify a battery ...

The company designs and tests high-performance battery cabinets, energy management systems, and integrated electronic solutions for industrial and renewable energy applications.

The company develops advanced solutions for long-duration energy storage, high-efficiency power generation, and industrial heat recovery.

These solutions optimize grid performance and accelerate the transition to renewable sources. The company is committed to supporting Slovakia's ambitious decarbonisation targets.

We declare that IS - Industry Solutions, a.s. complies with national, EU, international and US regulations and rules of international trade, export and compliance rules.

Our focus is in analyzing urban heat islands, assessing building energy performance, and developing effective strategies for urban cooling and energy-efficient building designs.

As demand for renewable energy solutions skyrockets, Bratislava energy storage manufacturers are quietly becoming the Swiss Army knives of Europe's green transition.
