

South Korea Single-Fiber Bidirectional QSFP

NEC Corporation (NEC; TSE: 6701) has expanded its lineup of optical transceivers for 100Gb/s transmission, and has started selling the new "100G QSFP28 ZR4 BiDi," which extends ...

The QSFP28 transceiver provides 100GBase-BX throughput up to 20km over single-mode fiber (SMF) using a wavelength of 1310nmTx/1280nmRx via an LC connector. This bidirectional unit must be ...

Enables 80km high-bandwidth connections between data centers via single-fiber bidirectional transmission. Supports 100G high-speed interconnection between urban core nodes with MSA ...

The QSFP28 transceiver provides 100GBase-BX throughput up to 20km over ...

This product is an improved version of the dual-fiber 100G QSFP28 ZR4 transceiver that uses two fibers, and it achieves bi-directional data transmission in both the upstream and ...

QSFP28 100G BIDI ZR4 80KM optical module, extending the transmission distance to 80 km, using a single core fiber to achieve upstream and downstream two-way data transmission.

NEC's 100G QSFP28 BiDi optical transceiver enables the transmission and reception of 100Gb/s high-speed data over a single optical fiber. By enabling bidirectional transmission over a single fiber, this ...

Our QSFP28 Bidirectional (Bidi) transceivers delivers high-speed 100G connectivity over a single strand of fiber, with reach options up to 70km and support for both standard and industrial ...

Upgrading from 10G to 100G no longer requires complex fiber builds. Our QSFP28 Bidirectional (Bidi) transceivers delivers high-speed 100G connectivity over a single strand of fiber, ...

The Coherent 100G ZR QSFP-DCO is the industry's first dual laser QSFP28 digital coherent optics (DCO) module for single fiber, bi-directional applications - a breakthrough for ...

The QSFP-100G-B20U4-I and QSFP-100G-B20D4-I transceivers provide single-fiber, full-duplex, 100Gbps connectivity as network traffic continues to grow driven by new wireline and wireless ...
