

In this study, the advantages of multipoint monitoring are shown, and an in-line-implementation was created. This enabled the real-time supervision of the process, including the fast detection of ...

The Official Site of Major League Baseball While not officially part of the 40-man roster, players on the 60-day injured list (IL-60) are included on the 40-Man tab.

Raman spectroscopy allows detection of changes in concentration as well as in composition of the melt during processing. The in-line collected Raman spectra also gave an indication on the reactions ...

The official up-to-the-minute starting lineup of the San Diego Padres.

The aim of this research was to use Raman spectroscopy for the in-line monitoring of the solid state of materials during pharmaceutical hot-melt extrusion in the die head of a 12 mm ...

The official scoreboard of the San Diego Padres including Gameday, video, highlights and box score.

In this work, the plasma characteristics of a tapered coaxial gun was studied and its effect on the tungsten target was investigated. By using current probe, photodetector, spectrometer and ...

Padres is the official ticket source for the San Diego Padres. All tickets purchased through Padres are verified and sold directly through Major League Baseball. Purchasing from the ...

Here, Wanet al. propose a tapered fibre multimode interference spectrometer exhibiting high spectral resolution from the visible to the near infrared in a compact configuration.

The official website of the San Diego Padres with the most up-to-date information on news, tickets, schedule, stadium, roster, rumors, scores, and stats.

This study demonstrates the feasibility of real-time monitoring during the hot-melt extrusion process for pharmaceutical products. The measurement is non-contact and non-destructive, and if necessary it ...
