

A 10G small form-factor pluggable (SFP) optical line terminal (OLT) to add passive optical network (PON) services for fiber-to-the-anything (FTTx).

JIAXUN JQ-LW100-ER4C QSFP28 Optical Transceiver Module is designed for use in 100GBASE Ethernet throughput up to 40km over single mode fiber (SMF) using a wavelength of 1310nm via ...

The Syrotech SY-GPON-8OLT-L3 8-Port GPON OLT Layer 3 Loaded with SFP modules is a powerful, high-capacity optical line terminal designed for next-generation FTTH deployments.

Explore our range of high-quality GPON, EPON, and XG (S)PON OLT products. Find the perfect Optical Line Terminal solutions for your network needs.

The QSFP28 module provides 100GBase-LR4 throughput up to 10km over a standard pair of single-mode fiber (SMF) with duplex LC connectors. This transceiver is compliant with IEEE 802.3ba ...

with SFF-8472 Compliant with IEEE 802.3ae -40°C to +85°C DESCRIPTION The SFP28 SR transceivers are high performance, cost effective modules supporting data rate of 25Gbps and 100m ...

Access to the network is provided through up to two SFP+ high speed uplink interfaces. The SDOLT allows the network engineer to build scalable, fault tolerant point-to-multipoint networks ...

Our SDX 6000 Series of software-defined optical line terminals (OLTs) consists of open and disaggregated access devices that support a broad range of PON standards, including 10G Combo ...

From the Central Office's (CO) Optical Line Terminal (OLT, with SFP GPON transceiver/module) a single strand of fiber goes out to a passive optical splitter where its signal is multiplied to 64 (128) ...
