

Temperature Control Distribution Box System

We wrap our innovative cold chain solutions in intelligent service, assuring safe, efficient transport of pharmaceuticals, biologics, vaccines and other temperature-sensitive products.

Intelsius temperature-controlled parcel shippers are designed for easy and secure shipping of temperature-sensitive pharmaceutical products and human samples anywhere in the cold chain.

Whether moving vaccines across continents or gourmet seafood across town, shippers rely on cold boxes to block conduction, convection, and radiation, keeping internal temperatures ...

Meyer Tool designs and fabricates custom cryogenic distribution boxes, also known as cryogenic cold boxes, for complex systems where extreme temperature control and precise gas routing are crucial.

Taylor's strategic cold chain distribution network ensures the safe storage and on-time delivery of your temperature-controlled packaging and shipping solutions.

With decades of experience, Kardex automated storage solutions integrate seamlessly into various temperature-controlled environments, delivering high throughput, minimized floor space, and ...

Insulated boxes from Utz are designed to meet the demands of temperature-sensitive logistics, offering reliable and efficient solutions for industries such as food production, pharmaceuticals, and more.

Softbox is an award-winning temperature control packaging innovator that has been designing and producing high-performance passive temperature control packaging systems for over 20 years.

Ensure stable ambient temperature shipping with cold chain boxes featuring phase change materials at 15-25C. Ideal for pharmaceuticals, diagnostics, and sensitive goods requiring controlled conditions.

Our temperature controlled packaging can help you transport your temperature sensitive goods such as food and medicines at a controlled temperature.

With decades of experience, Kardex automated storage solutions integrate seamlessly into various temperature-controlled ...
