

Your trusted one-stop partner for advanced semiconductor and photonics packaging. Pushing the boundaries of design, fabrication, and assembly while driving sustainability.

Integra Technologies offers turnkey IC Packaging services for custom, high-performance and high-reliability microelectronics. This includes a full range of design, lean manufacturing and test services ...

United Arab Emirates (UAE) Optocoupler IC Market is expected to grow during 2025-2031

In response to these demands, device packaging developments have focused on achieving compactness, high efficiency, and high performance. Photonic integrated chip packaging ...

This paper discusses the evolution of both conventional and advanced packaging technologies and outlines future directions for design, fabrication, and packaging using glass ...

The UAE Advanced Semiconductor Packaging Market is rapidly expanding as demand for high-performance electronics, IoT devices, and 5G infrastructure grows. Innovations such as ...

The UAE's semiconductor advanced packaging market is expected to grow at over 8.07% CAGR by 2029, driven by efforts to reduce reliance on imports and promote local production. Get a free sample ...

Opportunities in the UAE Semiconductor Packaging Market include growth in renewable energy technologies, development of advanced packaging solutions, strategic partnerships with ...

The UAE's innovation pipeline in semiconductor and IC packaging materials is actively progressing through targeted R& D initiatives aimed at enhancing material performance, process...

The UAE's semiconductor advanced packaging market is expected to grow at ...

The United Arab Emirates (UAE) Semiconductor Market is expected to reach USD 1.75 billion in 2025 and grow at a CAGR of 8.30% to reach USD 2.60 billion by 2030.
