

## Upgraded version of relay protection extinction ratio tester

The functionality of existing relays can be modified or upgraded to meet new protection requirements. Upgrading the product to the latest version also brings benefits of new product features.

Compact, high-power relay test systems with IEC 61850 protection test capabilities and advanced touch interface. A software dedicated for commissioning and maintenance in digital substations. A ...

Smart Multi-phase Relay Protection Tester is a new generation of intelligent relay protection test equipment for Substation ABB, Siemens, SEL, Schneider, NR microcomputer protection device etc.

Provide convenient and prompt precision calibration for amplitude and phase by software without open the cabinet. Provide the basic test modules, include: AC Test, Ramping, StateSequencer, Harmonic, ...

Asking relay testers to recommend the "best" protective relay test-set is a loaded question. Find out which test-set is best for your needs!

The CMC 356 is the universal six-phase testing solution for all generations and types of protection relays, where highest versatility, amplitude and power are required.

Experience the benchmark in grid protection, automation, and monitoring! SIPROTEC 5, built on extensive field experience, offers comprehensive functionalities and device types for modern ...

Launch's Relay Testers provide precise secondary injection testing for protection relays and circuits. Verify CT/PT ratios, timing characteristics, and relay logic with industrial-grade accuracy.

Advanced plug & play design greatly simplifies system upgrade and maintenance locally. High product reliability gives us the confidence to promise free warranty for 5 years. Flexible customized solutions ...
