

OSFP-800G-AOC01 are designed to meet FCC Class B limits.

This active optical cable is compliant with IEEE802.3bs-400GAUI-8, IEEE802.3bm-CAUI-4, OSFP MSA, and SFF-8661. Thin and lightweight AOC cables simplify cable management, enabling an efficient ...

The ultra-low latency and high throughput of our 800G Active Optical Cables make it perfect for AI/ML clusters, GPU-to-GPU aggregation, and HPC environments--ensuring data moves at line rate even ...

Product is available in OSFP form to satisfy the different host system requirements. Transmission is based on VCSEL 850nm with electrical driver, while Receiver side is based on PIN photodetector ...

OSFP (AOC) Cables OSFP Active Optical Cable OSFP Active Optical Cables (AOCs) are high-speed interconnects for data centers, supporting up to 800 Gbps. Using the OSFP form factor, they offer ...

Supporting form factors like QSFP and OSFP, and data rates up to 800G, they are lightweight, flexible, and ideal for high-density, mission-critical networks, meeting all industry standards.

The GIGALIGHT 800G OSFP AOC active optical cable is used for short distance interconnections between equipment within data centers and are compliant with the IEEE 802.3. The series uses 8 ...

SFP, QSFP, QSFP-DD, OSFP ACTIVE OPTICAL CABLE ASSEMBLIES Our active optical cable assembly portfolio provides improved cable flexibility and longer reach as compared to both ...

3 Optics can provide a full line of Passive fiber products, including MTP/MPO Fiber Cables, MTP/MPO Cassettes, LC/SC Fiber Patch Cables and CWDM/DWDM Mux& Demux, Fiber Adapters etc.

QSFP+ AOC-56g is a high data rate parallel active cable (AOC). The AOC provides four independent data transmission channels and four data reception channels via multi-mode ribbon fiber, each ...
