

# Zambian Low Insertion Loss Splitter OM3 Inventory

Our Hybrid Fiber Type Optical PLC Splitters with MPO connectors simplify fiber optic management in high-density applications. The multi-fiber capability and robust design ensure reliable signal ...

PLC Splitter means planar light-wave circuit splitter, which is based on planar light wave technology, widely used in FTTX,EPOM,BPON,GPON .We launched 1xN,2xN

Multimode fiber optic PLC splitter (OM1/OM2/OM3/OM4 multi-mode fiber PLC splitter) splits optical signals in 50/125, 62.5/125 multimode fiber.

They're capable of operating over a broad wavelength range from 650 nm to 1350 nm (Typ. 650nm, 850nm and 1300/1310nm). 62.5/125 and 50/125 (OM1, OM2, OM3 and OM4 fiber) are now available.

We offer ABS box PLC Splitters with a wide range of styles and sizes to split or combine light with minimal loss. All splitters are manufactured using a very simple process that produces reliable, low ...

This MPO Passive Optical Splitter Module designed as a plug-play solution for FTTX application. The modules are designed for use in FTTX networks and available in multiple configurations and ...

Product descriptions are listed according to the available information at the time of publication. Product specifications can be changed without advanced notification. More detailed and exact information ...

Optical splitter divides light from a single fiber into two or more fiber channels. Note: All insertion loss and insertion loss referenced without connectors. Takfly, established in 2000, has been ...
