

This is a 120 V 10 A on/off relay you can use in your lighting applications or to control any load within the device's specs via Z-Wave. You can also add a mechanical on/off switch to it for parallel manual ...

Scan the SmartStart QR code on the ZEN78 relay and power it up - it will include automatically. You don't need to click the Z-Wave button unless you're using SmartThings in which case, you may need ...

The ZEN78 High Power Relay is a 40A-rated relay with built-in overcurrent protection, triggering at 40.5A. It features two double-pole 40A relays (for both input and output), allowing it to disconnect ...

The High Power relay offers the security and reliability required for robust installations (including commercial setups). Its feature set includes flexible reporting and fine-tuning of power outage ...

Protective relays and devices have been developed over 100 years ago to provide "lastline"of defense for the electrical systems. They are intended to quickly identify a fault and isolate it so the balance of ...

Zooz Z-Wave Long Range Low Voltage XS Relay ZEN58 800LR 14 reviews \$26.95 \$32.95 Zooz Z-Wave Long Range High Power Relay ZEN78 800LR 11 reviews \$69.95 \$89.75

The ZEN78 High Power Relay is designed for safely automating and controlling heavy-duty 240VAC appliances. With a 40A rating and built-in overcurrent protection (triggering at 40.5A), it provides ...

You can find a list of compatible hubs for a given device under the Works With section on the product's page. Here is the list of hubs compatible with the ZEN57.

Bring your next DIY project to life with one of our multitasking Z-Wave relay devices. Here is a quick overview of the best smart relays out there to help you choose the right product for your installation.

The objective of this presentation is to convey a basic understanding of protective relays to an audience of engineers already familiar with low voltage protective device coordination.
